

ONIX CLASSIC SERIES

This is the most comprehensive range of products from ONIX - with a total of seven products. These include three amplifiers, two CD players, a DAC and a network player. This is a very well priced range and designed to meet the needs of the most discerning users. Styling includes a black glass front panel with gold control knobs.

CD 25 CD PLAYER

This player is ideally matched with the A25 amplifier, both being of a similar half width design. The modern design features a slot drive CD loader.

Maintaining all the features associated with Classic products from Onix, this is a simple to use, sonically superior player. It features both RCA and XLR analog outputs together with 2 digital outputs.

Released to commemorate the 30th anniversary of Onix, the A25 and CD25 will as a result, become true collector items in the years to come.
